Pool options are endless...

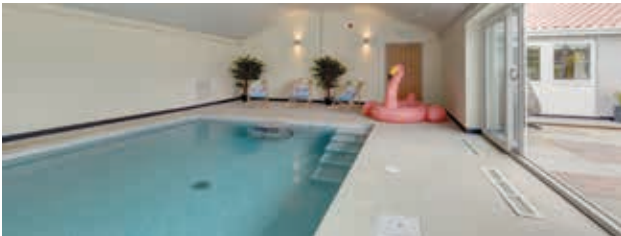

Concrete / block liner pools

A concrete / liner pool can be installed within 10 days. This includes the concrete footing, block work, rendering and installation of the pool liner.

Indoor pool

Gives the owner added luxury. They are perfect for all year round swimming for all the family.

Polypool panel pool system

Suitable for all types of projects, the Polypool system offers an easy and quick solution whilst providing unrivalled heat retention capabilities.

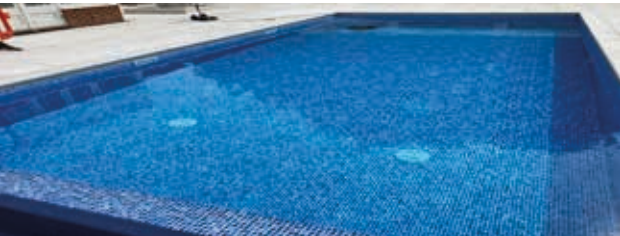

On-site liner pool

Upgrade your pool to an on-site liner pool offering greater choice in size and shape to make it your dream pool. 15 year pro-rata guarantee on the liner.

DIY Vycon block & liner pool kits

The ever popular Vycon pool kit comes with a pre-packaged and more comprehensive plumbing and chemical kit.

Heatform Panel swimming pools

The heat retaining panels on these pools are designed to trap heat in the pool and keep the surrounding cold out.

Call us to book a site visit to explore the perfect swimming pool options at your home for you and your family

Wensum Pools refurbishment

A regular maintenance program helps to hold back the ravages of time but when pools become dangerous or ugly it is time to carry out a refurbishment.

Pools that have been refurbished properly are more enjoyable, safer and cheaper to run. Wensum Pools have refurbished hundreds of swimming pools so we know all the ways to bring a pool back to life quickly and cost effectively. Leaky concrete pools can be restored or liners fitted, worn liner pools can be replaced with a superior replacement. Dangerous and ugly pool surrounds can be re-laid and restored to their former glory.

Inefficient filtration and heating systems can be upgraded and become easier and cheaper to run. Pool usage can be increased by fitting enclosures enabling all year use. Automatic dosing and pool cover systems can be fitted to remove the chores involved with owning a pool.

Heat Form

INSULATED POOL PANELS

HeatForm insulated pool panels are the convenient and eco-friendly way to build a high quality in-ground or above-ground swimming pool in your home, garden, spa or school, whilst helping the planet at the same time.

VELOCITY

a powerful, energy-efficient and high performance jet providing the ultimate swimming experience for the modern athlete.

BADU swim jet systems

Transform your pool into a limitless swimming paradise with a BADU swim jet system. These premium counter swim units deliver a seamless, turn-free swimming experience. Thanks to advanced propeller technology, they create a smooth, splash-free flow that mimics the sensation of swimming in open water.

Coverseal

The fantastic Coverseal safety cover system provides numerous benefits to your customers and provides peace of mind. With a cover capable of supporting up to 150kg per m² in the event of someone falling on it and a unique patented operation, Coverseal provides a clean aesthetic and long lasting secure option for even the most discerning customer.

Brand New & Energy Efficient Solutions

- 1

Nova Steam Shower Cabin
Free standing cabin from Harvia which will add a touch of luxury and modern appeal to any bathroom.

- 7

Coloured pool fittings
Available to complement our best-selling liners, the full range of fittings are available, including inlets, main drain and light fascia.

Automatic Pool Cleaners

Alpha iQ™ range | Ultra-efficiency combined with intelligence

Thanks to its Sensor Nav System™ technology, Alpha iQ™ identifies the configuration of each pool for personalized cleaning. The powerful and long-lasting patented cyclonic suction system efficiency ensures optimal collection of all type of debris. In addition, its patented Lift System and the intuitive and remote control via the iAquaLink™ application of the Alpha iQ™ range provide real ease of use on a daily basis.

Zodiac RF 5600 IQ Wireless

Free of its cable, FREERIDER™ is easy to use on a daily basis and takes up little space. Its long-lasting lithium-ion battery guarantees a full cleaning cycle (2.5 hrs) and can be recharged in just 5 hours. The iAquaLink® application enhances this sense of freedom, as users can view the battery's power level immediately and access end-of-cycle notifications or remote updates. With its patented Lift System, accessed from the provided remote control, it is lighter when removing from water.

FREERIDER™ offers uncompromising cleaning performance thanks to its powerful and long-lasting patented cyclonic suction. Its helix shaped brushes and dual stage progressive filtration allow it to collect even the finest debris more efficiently.

With its integrated smart sensors and unique design, FREERIDER™ is exceptionally agile and offers excellent cleaning coverage for your pool, regardless of its shape or surface.

COVERSTAR

Automatic Safety Covers

Coverstar prevents the bad stuff like leaves, dirt and debris from getting into the pool whilst keeping the good stuff - heat, water and chemicals - from getting out. The Coverstar can help save up to 70% on heating and chemical costs.

With less time to worry about maintenance, upkeep, keeping the right chemical and heat levels you will have more time to relax and enjoy your pool.

Demo cover available to view

Various colour options are available for the composite decking. Samples are available on request from The Auto Covers Division.

Roldeck Automatic Pool Cover

The Roldeck automatic pool cover is available for domestic and commercial pools, indoor or outdoor, and is versatile in the applications it offers. They are the ultimate in heat insulation, evaporation control, durability and aesthetic appearance.

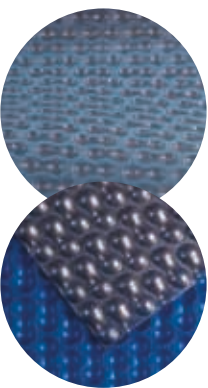

The Roldeck cover is manufactured in interlocking sections similar to a Venetian blind. Each section simulates the double glazing system, with 0.5" of interspace combining the highest degree of insulation with evaporation control. The standard white sections are popular for indoor pools. On outdoor pools the solar slats with black bases promote high solar heat transfer.

A distinct advantage of Roldeck is that rain water will pass through the cover, and will not collect on top requiring removal by pump. The roller is powered by a 24 volt motor, with remote operation from a touch screen control with built-in safety lock feature.

All Roldeck covers are manufactured specifically for individual pool requirements.

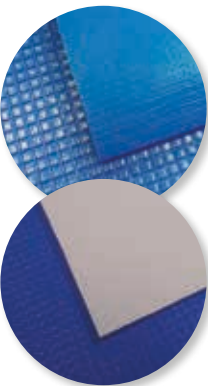

Geo Bubble 600

The GeoBubble extrusion has specifically been created to combat the attacks of UV and pool chemicals and has converted the limitations of a traditional bubble to great advantages.

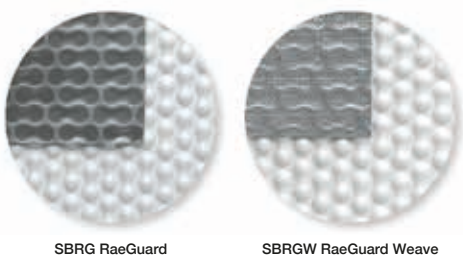

Foam Heat Retention Covers

Certikin foam heat retention covers are manufactured from a closed-cell PE foam. Our 6mm Thermalux is suitable for all heat retention purposes on pools run up to 30°C, and benefits from a laminated underside and a strong woven polyethylene top coat making it extremely hard wearing. The density of the material helps to keep light penetration to a minimum and therefore reduces algae growth.

RaeGuard

Available with or without a reinforcing weave.

SBRG RaeGuard

SBRGW RaeGuard Weave

Certikin & Cranbourne Stone Coping & Paving

We have a large selection of Coping and Paving options, please contact us for a full quote.

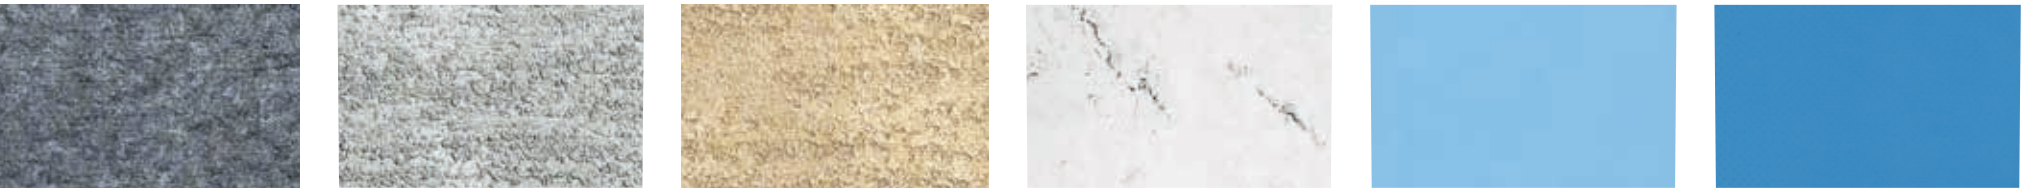

On-Site Pool Linings – Your perfect pool

Having your own private pool is a long-cherished dream for more and more people, a desire to improve and invest in their quality of life. The high-quality materials we use fulfil all the requirements to provide a modern, environmentally friendly and functional swimming pool lining system at a price that is inexpensive.

Our pool linings are suitable for both new and existing pools, allowing you to design, build or change the pool into something that you've always wanted.

Master Inverter

THE INTELLIGENT SWIMMING POOL HEAT PUMP!

Thanks to its smart, exclusive regulation system, the Master-Inverter heat pump regulates its power depending on the water temperature but also depending on the surrounding air temperature. This always guarantees the right bathing temperature, the best COP and the lowest sound level!

- **BOOST mode:** use of 85% to 100% of the power to guarantee a fast temperature rise.
- **ECO-silence mode:** the COP and sound level are privileged, the fan runs at minimum speed and the compressor runs to favour the COP.
- **SMART mode:** the power and the sound level adjust automatically depending on the outside temperature and the temperature of your pool.

Quantum AOP (Advanced Oxidation Process) from Electro Engineering

Quantum uses new ceramic Nano Crystal technology, a prime focus of the science world today; possessing the power to sterilise sewage into drinking water without the use of chemicals.

Features & Benefits

- Photocatalytic TiO₂/Mo oxidiser and clarifier
- Reduces the need for chemicals in the pool
- Average lamp life expectancy: 2 years
- Equipped with intelligent lamp life indicator
- Salt and sea water compatible
- Combined photocatalytic, hydroxyl radical and UV technology
- Eliminates contaminants, leaving water looking fresh and clean
- Keeps your family safe from dangerous microorganisms such as cryptosporidium, adenoviruses and naegleria fowleri
- Optional smart peristaltic dosing system for chlorine and hydrogen peroxide
- Powerful sterilisation and eliminates the smell of chlorine

Pool Servicing

Summer Maintenance

Wensum Pools Ltd offer a complete valet service on swimming pools where we can visit on a weekly, fortnightly or monthly basis. We will undertake the following on your swimming pool:

- Hoover pool manually each visit
- Backwash pool
- Clean tile line and steps
- Empty basket
- Test chlorine, pH and Total Alkalinity (TA) levels
- Clean pool cover
- Adjust chemicals if need
- Clean auto doser, injectors, etc.

Winter Maintenance

Our winter service ensures that, once summer is over, your pool stays protected against the elements. Systems are drained, cleaned and treated using special chemicals to eliminate frost damage and easily bring the pool back to life.

Our service packages vary and include:

- Complete winter maintenance (Sept – April)
- Filter media changes
- Emergency call outs
- Leak protection
- Plant and boiler servicing
- Auto dosing servicing
- Heat pump and de-humidifier servicing
- Pressure washing paving, coping and covers
- Chemical deliveries
- Water testing

Spa Servicing by Wensum Pools Ltd

Get peace of mind that your hot tub is running efficiently by servicing your spa every 12 months.

Wensum Pools recommend a yearly spa service to avoid a build-up of biofilm, scale and bacteria. Our service involves the following:

- Flushing through the pipework with a Hot Tub Flush. This will clear any oils, bacteria or grime that has built up in the pipework.
- Emptying the spa and giving the shell a good clean with surface cleaner. The jets, returns and the filter housing will all be checked.
- Emptying and re-filling the spa from your water supply.
- Cleaning the spa cover inside and out, as well as the spa surrounds.
- Checking that the pump and the spa central system are running correctly.
- Ensuring that the chemical balance is correct before leaving.

Two beautiful holiday retreats with private swimming pools and hot tubs.

Saunas - on display

Indoor Saunas

We are able to supply saunas from two of the leading manufacturers; Tylo and Harvia. There are many different solutions depending on your requirements.

Outdoor Barrel Saunas

Available in clear or rustic Western Red Cedar. This simple design is highly effective, providing maximum useable space while minimizing excess cubic feet, which means the sauna will heat quickly and efficiently. The front wall section is set back to enhance the look of the sauna with a functional and decorative porch.

We are the only UK Showroom displaying NN Saunas.

Palmako Summer Houses

Add additional living space to your garden

Summer houses and gazebos are an affordable way to add space to your garden and create an additional living space to entertain guests or to enjoy the summer months.

Betty 9.0m²

The Palmako Betty 3mx3m Garden Pavilion is a luxurious outdoor shelter that offers sustainable wooden construction and beautiful styling. This stunning wooden gazebo provides great coverage from sun and rain as well as a perfect place to set up a hot tub or other cozy seating area. The Palmako Betty 9m² is available with an optional floor to provide extra stability while its optional dipped finish gives it easy protection against corrosion and mold. For enhanced comfort, an optional shingle roof adds a touch of class to any garden or patio.

Royce Cube 3x3m Aluminium Pergola with Solar LED Light Pack

The Royce Cube 3x3 metre luxury pergola combines contemporary design with practical outdoor living functionality. Manufactured by Norfolk Leisure, this compact premium aluminium structure features an integrated solar LED lighting system and adjustable louvred roof for year-round comfort.
